Automate Lien Searches

Municipalities are bridging the gap between municipal data and residents with MuniConnect, by automating the lien search process.

Serve better

Let us help you serve citizens faster by allowing them to order, pay for, and receive automated reports.

Save on costs

MuniConnect costs nothing for cities and counties and has saved them more than 80,000 hours in lien search preparation.

Streamline data

We integrate with your systems to retrieve data and generate automated reports. Even if your process is currently manual, we can help!

Collect fees

We'll collect fees and send bulk payments with detailed order summaries. We've generated $2.5M+ for Florida cities and counties.

Keep FL jobs

MuniConnect is a service of Orange Data. Our company employs hundreds of people who live right here in the Sunshine State.
